

CURRICULUM VITAE
(LEE, HYEON-JI)

Degrees

B.S., Environmental Marine Science, Hanyang University - Korea (2018)

Research position

M.S. candidate, Dept. Marine Sciences and Convergent Technology, Hanyang University, Korea(2018 – present)

Technique skills

- ✧ **Chemical analysis technique**
 - Collection of pore-water and sediment samples under anaerobic condition
- ✧ **Molecular technique**
 - Genescan (T-RFLP analysis)
 - Quantification of specific genes using real time-PCR

Research interest

- ✧ **Microbial community structure in various marine environments**
 - Microbial community composition in anaerobic marine sediments
 - Role of microbes in biogeochemical element cycles
